

MEDIEVAL TENTS

(See pages 12-23 for our Marquee Tents with color option!)

THE CAROUSEL PAVILION

A beautiful round pavilion with two doorways for better ventilation. The Carousel comes complete with a sleeved center pole, hub, spokes, stakes and wind ropes.

We generally make this as a one piece tent but detachable walls with snaps and D-Rings are available for an extra \$65.00. You'll find that it is much easier to set up with the detachable walls because there is less bulk to deal with.

Shape fitted floors are also available. We make them out of Sunforger canvas for minimum shrinkage, and they serve as a rough pattern for where to drive your stakes for set-up. These are also available in our "Super Ground Cloth" design (Pg. 59).

Painted roof and wall seams are available in any of the acrylic paint colors shown on the inside front cover.

THE ROUND MARQUEE

If you'd like a Carousel Pavilion designed for use with perimeter poles instead of the spoke wheel design, we can make it for you for the prices below. This is basically a round marquee with reinforced brass grommets at the pole positions. Slanted walls are standard, and all options (sod flap, color, floors, etc.) are the same price as for the Carousel Pavilion shown above. Walls are made as a separate two curtain detachable piece with snaps and D-Rings. Poles, ropes and stakes are sold separately for this pavilion.
