

## TRAIL TARP

Also known as Diamond Shelters, these are your best friend on the trail. No other shelter has the set up flexibility of the Trail Tarp. The only limit to the number of ways it can be pitched is your own imagination. These can double as tent flies, throw tarps, ground cloths, etc., and are an excellent lightweight shelter for packing into an event.

With correct rope placement, and the help of a few trees, the Trail Tarp can be set up in any of the configurations shown below without using any poles.

Panther's Trail Tarps are built for versatility, with rolled canvas loops and triple layered reinforcements at the corners, center, and the mid-points of each side. We add a 1/2" wide, 18" double tie every 24" or so around the rest of the perimeter. All these loops and ties enable you to set our trail tarps up in any of the styles shown above.

SIZE	10 oz. Water Repellent, Flame Retardant Mildew Resistant	Sunforger Marine Boatshrunk	10.38 oz. Sunforger with Flame Retardant	13 oz. Sunforger with Flame Retardant
10' x 10'	\$173	\$133	\$157	\$170
12' x 12'	\$234	\$170	\$210	\$228
14' x 14'	\$282	\$205	\$252	\$274
16' x 16'	\$352	\$250	\$312	\$342

## OILSKIN TRAIL TARPS

Same great design and features of the ones shown above, but made from 8oz. Dark Brown Oilskin.

Perfect for trekking, the 9'6"x9'6" size can be rolled into a bundle about 12" long x 6" in diameter and weighs 7 lbs! These are made with the same loops, ties and reinforcements as above so you have virtually unlimited flexibility of set-up! You'll need the seam sealer for re-treating these once in a while.
